

OMNICHECK 3DL-HD

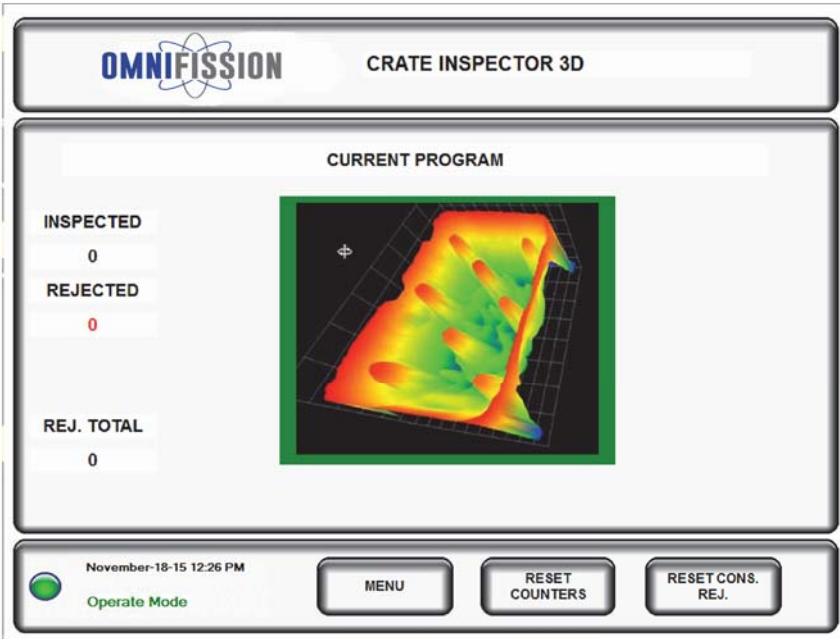

MANUFACTURED IN CANADA

OMNICHECK 3DL-HD Open Crate Inspection System
3D profiling technology to monitor missing/misplaced bottles
in open crates, detect residual bottles & debris in empty and
full crate. High Speed Inspection up to 160 crates per minute

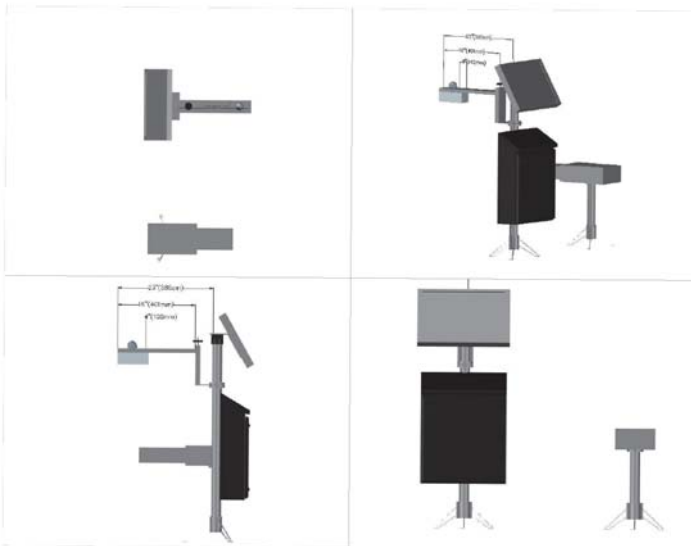

OMNICHECK3DL-HD

System Highlights

- 3D Laser Profiler - Technology Leader
- High Speed Inspection - up to 160 Crates Per Minute
- Detects Residual Bottles/Debris in Empty Crate
- Detects Missing/Misplaced Bottles in Full Crate
- Detects High Bottles (Difference of min. 20mm)
- Detects Missing Caps
- Detects Debris Between Bottles in Full Crate
- Integrated UPS with Power Monitoring
- 100% Automatic Product Inspection
- High Resolution Encoder Tracking
- 22" HMI with Remote Access
- IP 65 Electronics Enclosure

Dimensions

Specifications

Electrical Requirements: 110 VAC @ 10A or 230 VAC @ 10A • Operating Speed: Up to 160 Crates Per Minute
 Display Languages: English, French & Spanish • Environmental Standards: Nema 4X/IP65 • Materials: Stainless Steel Construction
